NO OVEN
NEEDED

MINIMAL
PREPARATION

Before

After

This patient's failing composite restoration was replaced with a BruxZir NOW crown, which was milled in under 36 minutes.

“BruxZir® NOW restorations have a natural luster straight from the mill that meets patient and dentist approval alike.”

– Paresh Patel, DDS | Mooresville, NC

BENEFITS

- No oven or post-milling processing needed; just polish and cement
- Conventionally cemented, no bonding required
- With minimal preparation requirements similar to full-cast gold, BruxZir NOW allows patients to keep more of their existing dentition

Sold in 3-block packs that include 3 single-use burs
